

## The Regression Scenario

### Regression Scenario

The development team has deployed a major update — they completely rebuilt the shopping cart and checkout flow. All features of the nopCommerce store must now be retested in full to make sure the changes have not accidentally broken anything elsewhere.

## The 35 Regression Test Cases

### Feature Area 1: Homepage and Navigation (5 Tests)

| RT-001: Homepage Loads With All Elements and No Console Errors |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| Pass / Fail                                | PASS                                                                                                                                                                                                                                                                              |

## Feature Area 5: Wish List (3 Tests)

| RT-021: Wish List Accessible From My Account |                                                                                                                                                       |
|----------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| Test Type: <b>Regression</b>                 |                                                                                                                                                       |
| Precondition                                 | <i>Logged in to a registered account</i>                                                                                                              |
| Steps                                        | <ol style="list-style-type: none"><li>1. Click on the Wish List icon in the top right or go to My Account</li><li>2. Navigate to Wish List</li></ol>  |
| Expected Result                              | Wish list page opens. If products were added in RT-015 they should appear here. An empty wish list shows an appropriate message rather than an error. |
| Actual Result                                | Wish list page opens. If products were added in RT-015 they should appear here. An empty wish list shows an appropriate message rather than an error. |
| Pass / Fail                                  | PASS                                                                                                                                                  |

| RT-022: Add to Wish List From Category Page |                                                                                                                                                                                                                                                    |
|---------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Test Type: <b>Regression</b>                |                                                                                                                                                                                                                                                    |
| Precondition                                | <i>Logged in to a registered account. On a category page</i>                                                                                                                                                                                       |
| Steps                                       | <ol style="list-style-type: none"><li>1. Go to any category page such as Computers &gt; Notebooks</li><li>2. Find the Add to Wish List icon on any product card in the listing</li><li>3. Click it without opening the full product page</li></ol> |
| Expected Result                             | A success notification appears. The product is added to the wish list. No need to open the product detail page first.                                                                                                                              |
| Actual Result                               | A success notification appeared. The product was added to the wish list. No need to open the product detail page first.                                                                                                                            |
| Pass / Fail                                 | PASS                                                                                                                                                                                                                                               |

| RT-023: Remove Product From Wish List |                                                                                                                                                         |
|---------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|
| Test Type: <b>Regression</b>          |                                                                                                                                                         |
| Precondition                          | <i>Wish list has at least one item</i>                                                                                                                  |
| Steps                                 | <ol style="list-style-type: none"><li>1. Go to Wish List</li><li>2. Click the Remove button next to any product(s) in the list</li></ol>                |
| Expected Result                       | The product(s) is removed from the wish list. The page updates and shows the remaining items. If the list is now empty an appropriate message is shown. |
| Actual Result                         | The product(s) were removed from the wish list. The page updated and showed no remaining items. The list is now empty an appropriate message was shown. |
| Pass / Fail                           | PASS                                                                                                                                                    |

## Feature Area 6: Checkout Flow (7 Tests)

| RT-024: Checkout Page Loads With Correct Items |                                                                                                                                                                           |
|------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Test Type: <b>Regression</b>                   |                                                                                                                                                                           |
| Precondition                                   | At least one item in cart. Logged in                                                                                                                                      |
| Steps                                          | <ol style="list-style-type: none"><li>1. Add a product to the cart</li><li>2. Go to cart page</li><li>3. Click Proceed to Checkout</li></ol>                              |
| Expected Result                                | The checkout page loads showing the correct item, quantity and price from the cart. Checkout steps are visible.                                                           |
| Actual Result                                  | Clicked the Add To Cart button and it did not add to the Shopping cart. The screen only showed the detailed product. There is no other option to add to cart on the page. |
| Pass / Fail                                    | FAIL                                                                                                                                                                      |

| RT-025: Billing Address Form Accepts Valid Input |                                                                                                                                                                                                                                                          |
|--------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Test Type: <b>Regression</b>                     |                                                                                                                                                                                                                                                          |
| Precondition                                     | On the checkout billing step                                                                                                                                                                                                                             |
| Steps                                            | <ol style="list-style-type: none"><li>1. On the checkout billing address step</li><li>2. Fill in all required fields with valid data: First Name, Last Name, Email, Country, City, Address 1, Zip/postal code, Phone</li><li>3. Click Continue</li></ol> |
| Expected Result                                  | All fields accept the input. No validation errors appear for correctly filled fields. Can proceed to the next step.                                                                                                                                      |
| Actual Result                                    | A pop-up error message appears "State/province is required field" after clicking Continue. It is not marked as a required field.                                                                                                                         |
| Pass / Fail                                      | FAIL                                                                                                                                                                                                                                                     |

| RT-026: Required Fields Show Errors When Left Empty |                                                                                                                                                                             |
|-----------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Test Type: <b>Regression</b>                        |                                                                                                                                                                             |
| Precondition                                        | On the checkout billing step                                                                                                                                                |
| Steps                                               | <ol style="list-style-type: none"><li>1. On the checkout billing address form</li><li>2. Leave First Name completely empty</li><li>3. Leave City completely empty</li></ol> |
| Expected Result                                     | Red error messages appear next to each empty required field. The checkout cannot proceed until all required fields are filled. No crash or blank page.                      |
| Actual Result                                       | Red error messages appear under each empty required field. The checkout does not proceed until all required fields are filled. No crash or blank page.                      |
| Pass / Fail                                         | PASS                                                                                                                                                                        |

| RT-027: Shipping Method Selection Works |                                                                                                                                                                                                                                            |
|-----------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Test Type: <b>Regression</b>            |                                                                                                                                                                                                                                            |
| Precondition                            | <i>Billing details completed</i>                                                                                                                                                                                                           |
